

Make Life Easier

Web+Cloud Based Drilling + Project Life Cycle Software

POWERFUL

Wellman NextGen monitors, controls and captures all daily in-field costs and activities during the full well life cycle.

- Maximize your efficiencies and increase your profits 9
- 8
- Leverages teams and the E&P ecosystem
- Highly adaptable to meet any drilling and completion needs

Implement Wellman in days and train field personnel in under 20 mins.

COMPLETE PROJECT LIFECYCLE

REPORTING & ANALYTICS

RES dashboards and analytics to improve communication, decision making and efficiencies.

PERFORMANCE

Wellman NextGen is designed for oil and gas, engineering and national oil companies with rigorous drilling and completion (D&C) requirements, providing collaboration across all business entities in the E&P ecosystem. Wellman NextGen offers superior workflow, change management and tracking with extended reporting and analysis capabilities.

Wellman NextGen allows for simplified and robust integration with industry standard applications such as authorization for expenditure (AFE), financial, global information systems (GIS) and more.

PRACTICAL

Wellman NextGen is specifically designed to meet the growing need for practical and sophisticated software at the lowest total cost of ownership.

Wellman NextGen can accommodate companies of all sizes, providing the most advanced well data management functionality available in the market today.
